

# LED Vaporproof Jelly Jar

**SPECIALTY**  
Vaporproof Jelly Jar

**Features and Benefits**

- 14 Watt Low Power and High Performance
- Efficacy exceeding 80 lm/W allows replacement of 100W incandescent or 23W CFL
- Die-cast housing, durable powder coat finish
- Clear Polycarbonate Lens
- IP66 rated
- Suitable for inverted mounting
- Multiple conduit entries for easy wiring
- Flat polycarbonate lens allows for lower mounting heights
- Rated Lifetime: 50,000 hours, L70 at TM-21 standards, 25 °C
- 5 Year Warranty\*
- UV, IR and Mercury-free

**Rated Life**  
50,000 hours

**Reduces**  
Energy & Cost

**No Lead or**  
Mercury
